

PRODUCT DATA SHEET

Product: Aristoforin

Cat. No.: BC-313 (1 mg)

Description:

Stable and water-soluble derivative of hyperforin inducing apoptosis. Antitumor agent. Inhibits sirtuins.

Molecular Weight:

594.8

Formula:

C₃₇H₅₄O₆

Cas Number:

849215-53-8

Appearance:

White to yellow oil

Solubility:

Soluble in DMSO or 100 mM sodium hydrogen carbonate/2% DMSO.

Storage:

Store at -20°C. Protect from light.

Purity:

≥95%

WARNING:

This compound is **Toxic**.

Limitations:

For research use only. Not for use in diagnostics or in humans.

Warranty:

No warranties, expressed or implied, are made regarding the use of this product. **KAMIYA BIOMEDICAL COMPANY** is not liable for any damage, personal injury, or economic loss caused by this product.
